

# 8. Energy and other Utilities

## Water and Drainage

\* Respondents were asked to comment on water and drainage problems. The following were the main comments concerning water:

- Low pressure (20)
- Water quality (11)
- Water meters (3)
- Broken main (3)

\* In addition 4 other comments were made.

\* 10 respondents commented on drainage problems mainly in connection with blockages and breakages in pipework and ditches.

## Telephone, Mobile and Internet

\* A significant number of households have problems with their BT telephone lines.

\* Similarly mobile reception could be a lot better as could Internet connection speed.

\* There is some evidence that a majority of serious internet users (i.e. those using it for business etc.) are not happy with the connection speed.
