

11. Refuse and Recycling

Conclusions

- * 96% of all respondents believe the refuse collection service is reliable and provides a generally satisfactory service.
- * We are a recycling friendly Parish with 60% separating compostable waste from other waste.

Objectives

- * Consider whether any further community recycling facilities can be set up.

* 73% take newspapers for recycling but only 37% of those use the bins at the Village Hall entrance to the Primary School. The school will benefit financially if more use these bins.
