

# 1. Introduction

- \* The age profile of those completing the questionnaires together with their households are shown. A very high percentage (26%) are aged 65 and over.
- \* There are 135 children aged 18 or below in 70 households included in the survey. On this basis, children aged 18 or below represent 17% of the population.
- \* At least 81 households only have one adult living there and at least 48 of these are aged 65 or over.
- \* All areas of the Parish were represented.
- \* The periods of residence of households were very evenly spread with nearly 15% having lived in the Parish for 50 or more years and 34% having lived in the Parish for 30 or more years.
