

6. Work

Conclusions

- * Between 41% and 45% of the adult inhabitants are retired.
- * At least 71 inhabitants work from home.
- * 31 households, where at least one inhabitant works from home, say technology is important to them. This represents 61% of the households involved. 8 have specifically asked for improvements to internet services.
- * In addition to those working from home there are many businesses on the business parks and industrial sites located in the Parish.

Objectives

- * Publish a list of the local businesses, service providers and contact numbers on the Parish Web-site, in the Post Offices and Newsletter.
- * Include a list of local vacancies on the Parish Website.
- * Lobby those responsible for internet connections and services to provide appropriately efficient services for the businesses in the Parish.
